Our Quality Policy

We are committed to the production of lawful and innocuous products whose quality meets our client's needs and expectations or exceeds them. For this reason we constantly improve and update our procedures and standards.

This is the responsibility of each member of the company and we accomplish it by working as a team, both inside our company and with our suppliers.

.....

Manisur

Carries out the stuffing of its containers in its own plant under the supervision of SENASA (National Agri-Food Health and Quality Service), ANA (National Customs Service) and independent surveyors (third party verifiers) which guarantee the quality and quantity of the product.
